Prospective Offerors should discard the original solicitation document and use only this document when preparing their Offer.

To assist with your review of the Amendment, we have endeavored to identify amended portions with yellow highlighting. However, despite our best efforts, there is a chance that a change has not been identified. You are cautioned not to rely on our highlighting to identify all changes.

Questions and answers published in Amendment 2 begin on page 88 of this solicitation.

I. SCOPE OF SOLICITATION

ACQUIRE SERVICES (MODIFIED)

South Carolina Education Lottery (SCEL) is seeking proposals from qualified offerors capable of successfully integrating the Lottery's current Player Rewards Program into a more comprehensive and fully integrated digital engagement solution ("Digital Engagement Solution").

The Digital Engagement Solution must ensure real-time processing and compliance with industry standards and regulatory requirements. The solution must offer advanced data analytics, reporting capabilities, and comprehensive security features to protect against fraud and ensure the integrity of the gaming process. The Digital Engagement Solution must seamlessly convert SCEL's existing mobile application and web-based platforms into a more modernized digital platform in accordance with the components and application features described herein.

MAXIMUM CONTRACT PERIOD - ESTIMATED (MODIFIED)

Start date: **09/13/2027** End date: **09/12/2032**. Dates provided are estimates only. Any resulting contract will begin on the date specified in the notice of award. See clause entitled "Term of Contract - Effective Date/Initial Contract Period".

It is anticipated that the initial term of the contract will be a five (5) year contract with no renewal options resulting in a maximum contract term of five (5) years.

This contract shall not exceed five (5) years.

The Contract awarded under this solicitation will be for a potential total five-year performance term, which shall begin on the Cutover Date when mobile app goes live under this Contract.

Costs will be incurred upfront by the new vendor and passed on to SCEL upon successful completion of the System conversion (standard practice in the lottery industry)*. SCEL will not pay the existing vendor and new vendor simultaneously while one is generating revenue for the State and the other is not. The new vendor will not be paid for any services until the System is fully integrated and functioning successfully and approved to be released for production by SCEL. This will result in continued revenue being transferred to the Education Lottery Account (ELA) and will provide SCEL and, in turn, the beneficiaries of lottery proceeds, the best value for the services needed to support the State's education initiatives.

*System denotes the digital engagement platform and related mobile and web-based applications and modules associated with the Player Rewards program.

(i) Those prices;

(ii) The intention to submit an offer; or

(iii) The methods or factors used to calculate the prices offered.

(2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in the case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by the signatory that the signatory-

(1) Is the person in the offeror's organization responsible for determining the prices being offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to paragraphs

(i) Offeror and/or any of its Principals-

(A) Are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any state or federal agency;

Information not marked as required by the applicable instructions may be disclosed to the public." **IF YOU IDENTIFY YOUR ENTIRE RESPONSE AS EXEMPT FROM PUBLIC DISCLOSURE, OR IF YOU DO NOT SUBMIT A REDACTED COPY AS REQUIRED, THE STATE MAY, IN ITS SOLE DISCRETION, DETERMINE YOUR BID OR PROPOSAL NONRESPONSIVE AND INELIGIBLE FOR AWARD.** (b) By submitting a response to this solicitation or request, Offeror (1) agrees to the public disclosure of every page, or portion thereof, of every document regarding this solicitation or request that was submitted at any time prior to entering into a contract (including, but not limited to, documents contained in a response, documents submitted to clarify a response, and documents submitted during negotiations), unless the page, or portion thereof, was redacted and conspicuously marked "Trade Secret" or "Confidential" or "Protected", (2) agrees that any information not redacted and marked, as required by these bidding instructions, as a "Trade Secret" is not a trade secret as defined by the Trade Secrets Act, and (3) agrees that, notwithstanding any claims or markings otherwise, any prices, commissions, discounts, or other financial figures used to determine the award, as well as the final contract amount, are subject to public disclosure. You must separately mark with the words "TRADE SECRET" every page, or portion thereof, that you redacted and claim as exempt from public disclosure as a trade secret pursuant to Section 39-8-20 of the Trade Secrets Act. By submitting a response, you agree to defend, indemnify and hold harmless the State of South Carolina, its agencies, officers and employees, from every claim, demand, loss, expense, cost, damage or injury, including attorney's fees, arising out of or resulting from withholding information by the State of South Carolina or any of its agencies, that you have redacted or marked as "Confidential" or "Trade Secret" or "Protected". III. SCOPE OF WORK/SPECIFICATIONS

OVERVIEW

The South Carolina Education Lottery (SCEL) was established by the State of South Carolina in 2001 as a Public Commission and instrumentality of the State with the enactment of Act 59 of 2001 (the “Lottery Act”). Operating as an Enterprise Entity, the Lottery receives no appropriated funds from the State. It operates the State’s lottery business in a socially responsible manner and transfers profits to the State to support education. Total game revenues in FY25 were \$2,299,816,885 with \$707,363,193 generated through draw games and \$1,592,453,692 through scratch-off tickets. Legislation was also passed in FY25 to allow players to use debit cards in addition to the cash payment option.

The Lottery currently offers a traditional product mix of Scratch-off games (“scratch-offs”) and terminal generated draw games (“numbers”) and sells them through an extensive statewide retailer network at more than 4,000 locations. Current product offerings include six (6) draw games, two (2) of which are national jackpot games (Powerball® and Mega Millions®); and four (4) of which are daily state draw games (Cash Pop, Pick 3, Pick 4, and Palmetto Cash 5) with a new NFL Powerball game to be added in August 2026; *and* numerous scratch-offs (with \$1, \$2, \$3, \$5, \$10, and \$20 price points).

If negotiations are conducted, the State may elect to disregard the negotiations and accept your original proposal. [06-6058-1]

EVALUATION FACTORS -- PROPOSALS (JAN 2006)

DEMONSTRATIONS

Offerors who are responsive and meet the Special Standards of Responsibility outlined in Section V. Qualifications, QUALIFICATIONS - SPECIAL STANDARDS OF RESPONSIBILITY (MAR 2015) will be required to give a demonstration of their proposal to clarify or verify the contents and the representations made therein. The demonstrations will be performed in person. Demonstrations will be held at 1333 Main Street, Suite 400 Columbia, SC 29201. The time allotted per individual Offeror shall not exceed ~~four~~ (4) three hours to include panel questions and Offeror's answers. **SCEL will notify the responsive Offerors as quickly as possible to schedule a specific date and time.** Demonstrations given by an Offeror under this section are permitted and communication by the Offeror with SCEL or its employees during a demonstration will not violate the restrictions applicable to Offerors.

- a. The activities of the Offeror should be limited to a demonstration of the system proposed and described in the Offeror's written proposal. Evaluators may ask questions pertaining to the Offeror's demonstration at the conclusion. The Offeror's answers are restricted to statements of fact. Offerors will not be allowed or permitted to introduce new information or show products/features not included in their proposal. Items that are "value added" and not part of the base proposal (including custom programming) must be included as such at every point that the product or feature is used, whether that use is directly in use or it supports the processes that the software is performing. Negotiation is not permitted at this stage in the procurement process, and an Offeror may not change its proposal.
- b. The Offeror may be required to document an answer if such a written clarification is determined to be in the best interest of the State.
- c. The demonstration should be conducted in a straightforward manner in order to secure a clear and meaningful understanding of the Offeror's proposal.
- d. The demonstration is designed to satisfy the evaluation panel's need for clarification and understanding of the information that was provided in the Offeror's written proposal. Therefore, the Offeror may neither ask questions, divulge any cost information, nor receive preliminary assessments on its proposal from the members of the panel.
- e. The demonstration script will be used to assist the State in reviewing your response and to gauge how well your solution may meet our organizational goals and objectives. Please prepare to present information, not static Power-Point, on the items listed in the demonstration script. The time allotted for the demonstration shall not exceed three (3) hours, which includes the presentation and further clarifications/questions and answers. Additionally, if time allows, at the end of the scripted portion of the demonstration, the vendor will have the opportunity to show any additional features or functionality offerings that were not previously covered by the demonstration script; but were a part of their response.
- f. In an effort to ensure that we cover all key factors necessary to complete our selection process, we ask that you complete the entire demonstration script before demonstrating other optional features. If there is a portion of the demonstration which your software does not accommodate, please state this during your demonstration and move on to the next agenda item.
- g. The demonstration session is designed to satisfy the evaluation panel's need for clarification and understanding of the information that was provided in the Offeror's written proposal. Therefore, the Offeror may neither ask questions nor receive preliminary assessments of its proposal from the members of the panel. Attendees at the presentation session should include the key members of the Offeror's proposed management team (account management team, key technical personnel, and key subject matter experts) who will be directly involved in

the delivery of the services requested to the State.

The State, in its own discretion, may modify any sub-paragraphs of this clause prior to presentations with Offerors.

DEMONSTRATION SCRIPT

The presentation script is outlined below. The overall demonstration is limited to 3 hours, which includes questions from panel members. Potential Offeror(s) are expected to address all the functional requirements and needs stated in the project overview and timeline.

1. Introductions - Introduce Your Company and Key Account Team Members assigned to this Account.
2. Overview - Discuss and present your proposed solution submitted in response section IV. INFORMATION FOR OFFERORS TO SUBMIT. Explain how you propose to meet the minimum requirements, and if applicable, how your proposal exceeds those minimum requirements.

(b) If contractor amends, modifies, or otherwise changes its name, its identity (including its trade name), or its corporate, partnership or other structure, or its FEIN, contractor shall provide the procurement officer prompt written notice of such change. As an alternative to offering a discount for prompt payment in conjunction with the offer, offerors awarded contracts may include discounts for prompt payment on individual invoices.

(b) In connection with any discount offered for prompt payment, time shall be computed from the date of the invoice. If the Contractor has not placed a date on the invoice, the due date shall be calculated from the date the designated billing office receives a proper invoice, provided the state annotates such invoice with the date of receipt at the time of receipt. If a court, despite this agreement and waiver, requires that interest be paid on any debt by either party other than as provided by items (c) and (d) above, the parties further agree that the applicable interest rate for any given calendar year shall be the lowest prime rate as listed in the first edition of the Wall Street Journal published for each year, applied as simple interest without compounding. (f) The State shall have all of its common law, equitable and statutory rights of set-off.[07-7A055-4]

Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract. (d) If the work includes software, coverage must also include claims for intellectual property infringement arising out of software and/or content (with the exception of patent infringement and misappropriation of trade secrets)

(e) Coverage shall have limits no less than five million (\$5,000,000.00) dollars per occurrence and ten million (\$10,000,000.00) dollars aggregate.

(f) If the insurance required by this clause is procured on a form affording "claims-made" coverage, then (i) all limits stated above as "per occurrence" shall be understood to mean "per claim" or "per occurrence," as is consistent with the terms of the "claims-made" policy; and (ii) such claims-made insurance shall provide for a retroactive date no later than the date the contract is awarded.

(g) All terms of this clause shall survive termination of the contract and shall continue until thirty (30) days past the final completion of the work, including the performance of any warranty work. In addition, contractor shall maintain in force and effect any "claims-made" coverage for a minimum of two (2) years after final completion of all work or services to be provided hereunder. Contractor shall purchase an extended reporting period, or "tail coverage," if necessary to comply with the latter requirement.

(h) Every applicable Using Governmental Unit, and the officers, officials, employees and volunteers of any of them, must be covered as additional insureds on the policy or policies of insurance required by this clause.

(i) For any claims related to this contract, the insurance coverage required by this clause shall be primary insurance as respects the State, every applicable Using Governmental Unit, and the officers, officials, employees and volunteers of any of them. Any insurance or self-insurance maintained by the State, every applicable Using Governmental Unit, or the officers, officials, employees and volunteers of any of them, shall be excess of the Contractor's insurance and shall not contribute with it.

(j) Prior to commencement of the work, the Contractor shall furnish the State with original certificates of insurance for every applicable policy effecting the coverage required by this clause. All certificates are to be received and approved by the Procurement Officer before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them. The State reserves the right to require complete, certified copies of all required insurance policies, including policy declarations and any endorsements required by this section, at any time.

(k) Should any of the above described policies be cancelled before the expiration date thereof, notice will be delivered in accordance with the policy provisions. In addition, the Contractor shall notify the State immediately upon receiving any information that any of the coverages required by this clause are or will be changed, cancelled, or replaced.

(l) Contractor hereby grants to the State and every applicable Using Governmental Unit a waiver of any right to subrogation which any insurer of said Contractor may acquire against the State or applicable Using Governmental Unit by virtue of the payment of any loss under such insurance as is required by this clause. Contractor agrees to obtain any endorsement that may be necessary to effect this waiver of subrogation, but this provision applies regardless of whether or not the State or Using Governmental Unit has received a waiver of subrogation endorsement from the insurer.

(m) Any deductibles or self-insured retentions must be declared to and approved by the State. The State may require the Contractor to purchase coverage with a lower deductible or retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. [07-7B058-1]

CONTRACTOR PERSONNEL (JAN 2006)

The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Contract. The Contractor shall not permit employment of unfit persons or persons not skilled in

tasks assigned to them. [07-7B060-1]

CONTRACTOR'S OBLIGATION -- GENERAL (JAN 2006)

The contractor shall provide and pay for all materials, tools, equipment, labor and professional and non-professional services, and shall perform all other acts and supply all other things necessary, to fully and properly perform and complete the work. The contractor must act as the prime contractor and assume full responsibility for any subcontractor's performance. The contractor will be considered the sole point of contact with regard to all situations, including payment of all charges and the meeting of all other requirements. [07-7B065-1]

CONTRACTOR'S USE OF STATE PROPERTY (JAN 2006)

Upon termination of the contract for any reason, the State shall have the right, upon demand, to obtain access to, and possession of, all State properties, including, but not limited to, current copies of all State application programs and necessary documentation, all data, files, intermediate materials and supplies held by the contractor. Contractor shall not use, reproduce, distribute, display, or sell any data, material, or documentation owned exclusively by the State without the State's written consent, except to the extent necessary to carry out the work. [07-7B067-1]

DEFAULT (MODIFIED)

(a) (1) The State may, subject to paragraphs (c) and (d) of this clause, by written notice of default to the Contractor, terminate this contract in whole or in part if the Contractor fails to:

- (i) Deliver the supplies or to perform the services within the time specified in this contract or any extension;
- (ii) Make progress, so as to endanger performance of this contract (but see paragraph (a)(2) of this clause); or
- (iii) Perform any of the other material provisions of this contract (but see paragraph (a)(2) of this clause).

(2) The State's right to terminate this contract under subdivisions (a)(1)(ii) and (1)(iii) of this clause, may be exercised if the Contractor does not cure such failure within 10 days (or more if authorized in writing by the Procurement Officer) after receipt of the notice from the Procurement Officer specifying the failure.

(b) If the State terminates this contract in whole or in part, it may acquire, under the terms and in the manner the Procurement Officer considers appropriate, supplies or services similar to those terminated, and the Contractor will be liable to the State for any excess costs for those supplies or services. However, the Contractor shall continue the work not terminated.

(c) Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the contract arises from causes beyond the control and without the fault or negligence of the Contractor. Examples of such causes include (1) acts of God or of the public enemy, (2) acts of the State in either its sovereign or contractual capacity, (3) fires, (4) floods, (5) epidemics, (6) quarantine restrictions, (7) strikes, (8) freight embargoes, and (9) unusually severe weather. In each instance the failure to perform must be beyond the control and without the fault or negligence of the Contractor.

(d) If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the subcontracted supplies or services were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule.

(e) If this contract is terminated for default, the State may require the Contractor to transfer title and deliver to the State, as directed by the Procurement Officer, any (1) completed supplies, and (2) partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (collectively referred to as "manufacturing materials" in this clause) that the Contractor has specifically produced or acquired for the terminated portion of this contract. Upon direction of the Procurement Officer, the Contractor shall also protect and preserve property in its possession in which the State has an interest.

(f) The State shall pay contract price for completed supplies delivered and accepted. The Contractor and Procurement Officer shall agree on the amount of payment for manufacturing materials delivered and accepted and for the protection and preservation of the property; if the parties fail to agree, the Procurement Officer shall set an amount subject to the Contractor's rights under the Disputes clause. Failure to agree will be a dispute under the Disputes clause. The State may withhold from these amounts any sum the Procurement Officer determines to be necessary to protect the State against loss because of outstanding liens or claims of former lien holders.

(g) If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for

convenience of the State, be the same as if the termination had been issued for the convenience of the State. If, in the foregoing circumstances, this contract does not contain a clause providing for termination for convenience of the State, the contract shall be adjusted to compensate for such termination and the contract modified accordingly subject to the contractor's rights under the Disputes clause.

(h) The rights and remedies of the State in this clause are in addition to any other rights and remedies provided by law or under this contract.

ILLEGAL IMMIGRATION (NOV 2008)

(An overview is available at www.procurement.sc.gov) By signing your offer, you certify that you will comply with the applicable requirements of Title 8, Chapter 14 of the South Carolina Code of Laws and agree to provide to the State upon request any documentation required to establish either: (a) that Title 8, Chapter 14 is inapplicable to you and your subcontractors or sub-subcontractors; or (b) that you and your subcontractors or sub-subcontractors are in compliance with Title 8, Chapter 14. Pursuant to Section 8-14-60, "A person who knowingly makes or files any false, fictitious, or fraudulent document, statement, or report pursuant to this chapter is guilty of a felony, and, upon conviction, must be fined within the discretion of the court or imprisoned for not more than five years, or both." You agree to include in any contracts with your subcontractors language requiring your subcontractors to (a) comply with the applicable requirements of Title 8, Chapter 14, and (b) include in their contracts with the sub-subcontractors language requiring the sub-subcontractors to comply with the applicable requirements of Title 8, Chapter 14. [07-7B097-1]

INDEMNIFICATION-THIRD PARTY CLAIMS – GENERAL (MODIFIED)

This section applies to the prosecution or defense of any action arising out of the Contractor's performance under the Contract. By law all claims MUST be brought "in good faith" or the instigator thereof will be subject to suit for a frivolous action or an action upon which there are no good grounds." See also Section 3.0 and S.C. Code Ann. Section 11-35-4230. The circumstances under which this remedy may apply will vary depending upon the factual situation on a case-by-case basis.

Notwithstanding any limitation in this Contract, and to the fullest extent permitted by law, Contractor shall defend and hold harmless Indemnitees for and against any and all suits or claims of any character (and all related damages, settlement payments, attorneys' fees, costs, expenses, losses or liabilities) by a third party which are attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property arising out of or in connection with the goods or services acquired hereunder or caused in whole or in part by any act or omission of the Contractor, its subcontractors, their employees, workmen, servants, agents, or anyone directly or indirectly employed by them or anyone for whose acts any of them may be liable, regardless of whether or not caused in part by an Indemnitee, and whether or not such claims are made by a third party or an Indemnitee; however, if an Indemnitee's negligent act or omission is subsequently determined to be the sole proximate cause of a suit or claim, the Indemnitee shall not be entitled to indemnification hereunder. The Contractor must indemnify the Indemnitee unless the Indemnitee is the sole proximate cause of the suit or claim. The RFP will not be modified to include a comparative negligence standard. The Contractor shall be given timely written notice of any suit or claim. Contractor's obligations hereunder are in no way limited by any protection afforded under workers' compensation acts, disability benefits acts, or other employee benefit acts. This Section shall not negate, abridge, or reduce any other rights or obligations of indemnity which would otherwise exist. The obligations of this Section shall survive termination, cancelation, or expiration of this Contract. This Section shall be construed fairly and reasonably, neither strongly for nor against either party, and without regard to any clause regarding insurance. As used in this Section, "Indemnitees" means the State of South Carolina, SCEL, its Commissioners and all their respective officers, agents and employees.

The Contractor, as part of its duty of indemnification, is required to defend and hold harmless the State from any costs arising out of the prosecution or defense of any action arising out of the Contractor's performance under this Contract, including any action affecting the payment or denial of the payment of lottery winnings in whole or in part. The Contractor shall notify SCEL of the filing of any such litigation, and SCEL shall give the Contractor written notice of any such claim, in the event such claim comes to the attention of SCEL first. SCEL shall have the right, but not the obligation, to participate in the litigation and, subject to prior review and discussion, shall also have the right to ultimately decide matters concerning any litigation arising out of the action affecting the payment or nonpayment of lottery winnings.

Contractor also agrees to advise SCEL of any claims asserted or brought against Contractor arising from this Contract and which may potentially expose SCEL to liability and to coordinate with SCEL on any issues of governmental or public interest or concern relating to SCEL and/or this Contract. In the event of participation by SCEL in the defense of any claim, which shall be solely at the discretion of SCEL, SCEL shall be responsible for its own costs and expenses. If SCEL, in its sole discretion, determines that the action may expose SCEL to liability, the Contractor will not settle any such claims arising hereunder without the express prior written permission of SCEL. The Contractor will, in all instances, bear its own attorneys' fees and expenses, and failure to comply herewith will entitle SCEL to make appropriate deductions from the Fixed Monthly Fee due to the Contractor or to draw upon the security pursuant to this Contract.

The Contractor further agrees that in the event it is requested to produce in any litigation any document or information referring or relating to the State or SCEL, it shall not produce the requested material before it has notified SCEL and provided it a reasonable opportunity to appear and object to the production or revelation of SCEL's material or information. SCEL will inform the Contractor when a request is made for it to produce a document or information in litigation that refers to or relates to the Contractor.

INDEMNIFICATION - THIRD PARTY CLAIMS – DISCLOSURE OF INFORMATION (FEB 2015)

(a) Without limitation, Contractor shall defend and hold harmless Indemnitees from and against any and all suits, claims, investigations, or fines (hereinafter "action") of any character (and all related damages, settlement payments, attorneys' fees, costs, expenses, losses or liabilities) by a third party which arise out of or in connection with a disclosure of government information (as defined in the clause titled Information Security - Definitions) caused in whole or in part by any act or omission of contractor, its subcontractors at any tier, their employees, workmen, servants, agents, or anyone directly or indirectly employed by them or anyone for whose acts any of them may be liable, regardless of whether or not caused in part by an Indemnatee, and whether or not such action is brought by a third party or an Indemnatee, but only if the act or omission constituted a failure to perform some obligation imposed by the contract or the law.

(b) Indemnatee must notify contractor in writing within a reasonable period of time after Indemnatee first receives written notice of any action. Indemnatee's failure to provide or delay in providing such notice will relieve contractor of its obligations under this clause only if and to the extent that such delay or failure materially prejudices contractor's ability to defend such action. Indemnatee must reasonably cooperate with contractor's defense of such actions (such cooperation does not require and is without waiver of an Indemnitees attorney/client, work product, or other privilege) and, subject to Title 1, Chapter 7 of the South Carolina Code of Laws, allow contractor sole control of the defense, so long as the defense is diligently and capably prosecuted. Indemnatee may participate in contractor's defense of any action at its own expense. Contractor may not, without Indemnatee's prior written consent, settle, compromise, or consent to the entry of any judgment in any such commenced or threatened action unless such settlement, compromise or consent (i) includes an unconditional release of Indemnatee from all liability related to such commenced or threatened action, and (ii) is solely monetary in nature and does not include a statement as to, or an admission of fault, culpability or failure to act by or on behalf of, an Indemnatee or otherwise adversely affect an Indemnatee. Indemnatee's consent is necessary for any settlement that requires Indemnatee to part with any right or make any payment or subjects Indemnatee to any injunction.

(c) Notwithstanding any other provision, contractor's obligations pursuant to this clause are without any limitation whatsoever. Contractor's obligations under this clause shall survive the termination, cancellation, rejection, or expiration of the contract. This provision shall be construed fairly and reasonably, neither strongly for nor against either party, and without regard to any clause regarding insurance.

(d) "Indemnatee" means the State of South Carolina, its instrumentalities, agencies, departments, boards, political subdivisions and all their respective officers, agents and employees. [07-7B102-1]

INDEMNIFICATION-INTELLECTUAL PROPERTY (JAN 2006)

(a) Without limitation and notwithstanding any provision in this agreement, Contractor shall, upon receipt of notification, defend and indemnify the State, its instrumentalities, agencies, departments, boards, political subdivisions and all their respective officers, agents and employees against all actions, proceedings or claims of any nature (and all damages, settlement payments, attorneys' fees (including inside counsel), costs, expenses, losses or liabilities attributable thereto) by any third party asserting or involving an IP right related to an acquired item.

State shall allow Contractor to defend such claim so long as the defense is diligently and capably prosecuted. State shall allow Contractor to settle such claim so long as (i) all settlement payments are made by Contractor, and (ii) the settlement imposes no non-monetary obligation upon State. State shall reasonably cooperate with Contractor's defense of such claim. (b) In the event an injunction or order shall be obtained against State's use of any acquired item, or if in Contractor's opinion, the acquired item is likely to become the subject of a claim of infringement or violation of an IP right, Contractor shall, without in any way limiting the foregoing, and at its expense, either: (1) procure for State the right to continue to use, or have used, the acquired item, or (2) replace or modify the acquired item so that it becomes non-infringing but only if the modification or replacement does not adversely affect the specifications for the acquired item or its use by State. If neither (1) nor (2), above, is practical, State may require that Contractor remove the acquired item from State, refund to State any charges paid by State therefore, and take all steps necessary to have State released from any further liability. (c) Contractor's obligations under this paragraph do not apply to a claim to the extent (i) that the claim is caused by Contractor's compliance with specifications furnished by the State unless Contractor knew its compliance with the State's specifications would infringe an IP right, or (ii) that the claim is caused by Contractor's compliance with specifications furnished by the State if the State knowingly relied on a third party's IP right to develop the specifications provided to Contractor and failed to identify such product to Contractor. (d) As used in this paragraph, these terms are defined as follows: "IP right(s)" means a patent, copyright, trademark, trade secret, or any other proprietary right. "Acquired item(s)" means the rights, goods, or services furnished under this agreement. "Specification(s)" means a detailed, exact statement of particulars such as a statement prescribing materials, dimensions, and quality of work. (e) Contractor's obligations under this clause shall survive the termination, cancellation, rejection, or expiration of this Agreement. [07-7B103-1]

In addition, as used in this clause— Clearing means removal of data from an information system, its storage devices, and other peripheral devices with storage capacity, in such a way that the data may not be reconstructed using common system capabilities (i.e., through the keyboard); however, the data may be reconstructed using laboratory methods. Intrusion means an unauthorized act of bypassing the security mechanisms of a system. Media means physical devices or writing surfaces including but not limited to magnetic tapes, optical disks, magnetic disks, portable hard drives, “thumb” drives, large scale integration memory chips, and printouts (but not including display media, e.g., a computer monitor, cathode ray tube (CRT) or other (transient) visual output) onto which information is recorded, stored, or printed within an information system. (b) Safeguarding Information. Without limiting any other legal or contractual obligations, contractor shall implement and maintain reasonable and appropriate administrative, physical, and technical safeguards (including without limitation written policies and procedures) for protection of the security, confidentiality and integrity of the government information in its possession. In addition, contractor shall apply security controls when the contractor reasonably determines that safeguarding requirements, in addition to those identified in paragraph (c) of this clause, may be required to provide adequate security, confidentiality and integrity in a dynamic environment based on an assessed risk or vulnerability.

(c) Safeguarding requirements and procedures. Contractor shall apply the following basic safeguarding requirements to protect government information from unauthorized access and disclosure: (1) Protecting information on public computers or Web sites: Do not process government information on public computers (e.g., those available for use by the general public in kiosks, hotel business centers) or computers that do not have access control. Government information shall not be posted on Web sites that are publicly available or have access limited only by domain/Internet Protocol restriction. Such information may be posted to web pages that control access by user ID/password, user certificates, or other technical means, and that provide protection via use of security technologies. Access control may be provided by the intranet (versus the Web site itself or the application it hosts).

(2) Transmitting electronic information. Transmit email, text messages, blogs, and similar communications that contain government information using technology and processes that provide the best level of security and privacy available, given facilities, conditions, and environment. (3) Transmitting voice and fax information. Transmit government information via voice and fax only when the sender has a reasonable assurance that access is limited to authorized recipients.

(4) Physical and electronic barriers. Protect government information by at least one physical and one electronic barrier (e.g., locked container or room, login and password) when not under direct individual control.

(5) Sanitization. At a minimum, clear information on media that have been used to process government information before external release or disposal. Overwriting is an acceptable means of clearing media in accordance with National Institute of Standards and Technology 800–88, Guidelines for Media Sanitization, at <https://csrc.nist.gov/pubs/sp/800/88/r2/final> (6) Intrusion protection. Provide at a minimum the following protections against intrusions and compromise:

(e) Other contractual requirements regarding the safeguarding of information. This clause addresses basic requirements and is subordinate to any other contract clauses or requirements to the extent that it specifically provides for enhanced safeguarding of information or information systems.

INFORMATION SECURITY – LOCATION OF DATA (MODIFIED)

Notwithstanding any other provisions, contractor is prohibited from processing, storing, transmitting, or accessing government information, as defined in the clause titled Information Security - Definitions, outside the continental

United States without express approval of SCEL. For clarity, this obligation is a material requirement of this contract and applies to subcontractors at any tier.

Code Ann. § 1-11-490, S.C. Code Ann. § 30-2-10 et seq. and S.C. SCEL may assess damages. The Contractor must provide SCEL notice of any such compromise within one (1) hour of discovery verbally to the Director of Information Technology or his or her designee. Contractors shall allow SCEL to both participate in the investigation of incidents and exercise control over decisions regarding external reporting. When notification to affected persons is required under this section or by law, the Contractor must provide that notification, but only after receipt of SCEL's approval of the contents of the notice. The Contractor agrees not to release any information provided by SCEL or any information generated by the Contractor without the prior express written consent of SCEL and further agree

INFORMATION USE AND DISCLOSURE (FEB 2015)

Except to the extent necessary for performance of the work, citizens should not be required to share information with those engaged by the government in order to access services provided by the government and such information should be used by those engaged by the government only to the extent necessary to perform the work acquired; accordingly, this clause addresses basic requirements for the Contractor's use and disclosure of government information, which expressly includes, but is not limited to, information provided by or obtained from the citizens. Anonymizing information does not resolve the foregoing concern. This clause should be broadly interpreted to effectuate this intent. Every obligation in this clause is material. Absent express reference to this clause, this clause supersedes any other clause to the extent of any inconsistency unless and to the extent the other clause provides greater protection for government information.

(a) Definitions. The terms used in this clause shall have the same meaning as the terms defined in the clause titled Information Security – Definitions.

(b) Legal mandates. Contractor shall be permitted to use, disclose, or retain government information to the limited extent necessary to comply with any requirement imposed on Contractor by law. If it is necessary for Contractor to use, disclose, or retain government information in order to comply with a law, Contractor shall provide using governmental unit with written notice, including a description of the circumstances and applicable law, in advance of such use, disclosure or retention except to the extent expressly prohibited by law.

(c) Flow down. Any reference in this clause to Contractor also includes any subcontractor at any tier. Contractor is responsible for, and shall impose by agreement the requirements of this clause on, any other person or entity that contractor authorizes to take action related to government information.

(d) Collecting Information. Contractor must gather and maintain government information only to the minimum extent necessary to accomplish the work.

(e) Rights, Disclosure and Use. Except as otherwise expressly provided in this solicitation, Contractor agrees NOT to either (1) use or disclose government information, or (2) retain government information after termination or expiration of this contract. Contractor acquires no rights in any government information except the limited rights to use, disclose and retain the government information in accordance with the terms of this solicitation. To the extent reasonably necessary to perform the work, Contractor may: (i) use (including access, process, transmit, and store) and maintain the government information itself; and (ii) disclose government information to persons having a need-to-know (e.g., subcontractors). Before disclosing government information to a subcontractor or third party, Contractor shall give the using governmental unit detailed written notice of both the reason for disclosure and the identity and location of the recipient. The notice shall be provided no later than fifteen (15) business days in

advance of the disclosure.

(f) Return. Notwithstanding the using governmental unit's failure to perform or the pendency of a dispute, Contractor agrees to promptly deliver to the using governmental unit (or destroy, at the using governmental unit's option) all government information in its possession as and upon written request of using governmental unit (provided that, if the contract has not expired or been terminated, Contractor shall be excused from the performance of any work reasonably dependent on Contractor's further access to such government information).

(g) Privacy Policy & Applicable Laws. Without limiting any other legal or contractual obligations imposed by this contract or the law, Contractor shall (a) comply with its own privacy policies and written privacy statements relevant to the work, and (b) comply with (1) all laws applicable to Contractor regarding government information, and (2) all laws and standards identified in the clause, if included, entitled Information Use and Disclosure – Standards.

(h) Actions Following Disclosure. Immediately upon discovery of a compromise or improper use of government information, Contractor shall take such action as may be necessary to preserve forensic evidence and eliminate the cause of the compromise or improper use. As soon as practicable, but no later than twenty-four hours after discovery, Contractor shall notify using governmental unit of the compromise or improper use, including a description of the circumstances of the use or compromise. As soon as practicable after discovery, Contractor shall undertake a thorough forensic investigation of any compromise or improper use and provide the using governmental unit all information necessary to enable the using governmental unit to fully understand the nature and extent of the compromise or improper use. With regard to any compromise or improper use of government information, Contractor shall: (1) provide any notification to third parties legally required to be provided such notice by Contractor, and if not (e.g., if legally required of the using governmental unit), Contractor shall reimburse using governmental unit for the cost of providing such notifications; (2) pay all costs and expenses for at least two years of identity theft monitoring services (including without limitation, credit monitoring) and identity theft restoration services for any such affected individuals receiving notice where such services are appropriate given the circumstances of the incident and the nature of the information compromised; (3) undertake any other measures that are customary and reasonable for an entity to take when experiencing a similar disclosure, (4) pay any related fines or penalties imposed on the using governmental unit, and (5) reimburse the Using Governmental Unit all costs reasonably incurred for communications and public relations services involved in responding to the compromise or improper use. Notwithstanding any other provision, contractor's obligations pursuant to this item

(h) are without limitation.

(i) Survival & Remedy. All the obligations imposed by this paragraph are material. The obligations of this section shall survive termination or expiration of the contract. Without limiting any rights the using governmental unit may have, and notwithstanding any other term of this contract, Contractor agrees that using governmental unit may have no adequate remedy at law for a breach of Contractor's obligations under this clause and therefore the using governmental unit shall be entitled to pursue equitable remedies in the event of a breach of this clause. [07-7B108-1]

The Contract may be terminated pursuant to the following:

- (a) **Nonappropriations or Lack of Legislative Authority:** If the General Assembly fails to appropriate or authorize the expenditure of sufficient funds to provide for the continuation of this Contract, any portion of the Contractor’s services, or if a lawful order issued for any fiscal year during the term of the Contract reduces the funds authorized in such amounts as to preclude making the payments set out herein, the Contract shall terminate on the date said funds are no longer available without any termination charges or other liability incurring to SCEL. SCEL shall provide the Contractor with notice not less than thirty (30) days prior to the date of cancellation, if such time is available. Otherwise, prompt notice will suffice. Furthermore, if, at any time during the term of this Contract, the General Assembly alters the authority of SCEL or the Board of Commissioners in a manner that requires a reduction in the scope of work or alters the products SCEL may lawfully offer, the Procurement Officer reserves the right to exercise its options as provided herein. In the event of occurrence of the circumstances described immediately above, the Contractor shall not prohibit or otherwise limit SCEL’s right to pursue and Contract for alternate solutions and remedies as deemed necessary by SCEL for the conduct of its affairs. All provisions herein shall apply to any Change Order, Contract Modification, or any Amendment to this Contract. Note that while the Lottery Act currently provides that SCEL is self-funding, the General Assembly can amend that law during the term of the Contract.
- (b) **For convenience:** The Procurement Officer may terminate in whole or in part by giving ninety (90) days written notice to the Contractor.
 - (1) Termination. The Procurement Officer may terminate this contract in whole or in part, for the convenience of the State. The Procurement Officer shall give written notice of the termination to the contractor specifying the part of the contract terminated and when termination becomes effective.
 - (2) Contractor’s Obligations. The contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the contractor will stop work to the extent specified.

The contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The Procurement Officer may direct the contractor to assign the contractor's right, title, and interest under terminated orders or subcontracts to the State. The contractor must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

- (3) Right to Supplies. The Procurement Officer may require the contractor to transfer title and deliver to the State in the manner and to the extent directed by the Procurement Officer:
 - (a) any completed supplies; and
 - (b) such partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (hereinafter called "manufacturing material") as the contractor has specifically produced or specially acquired for the performance of the terminated part of this contract. The contractor shall, upon direction of the Procurement Officer, protect and preserve property in the possession of the contractor in which the State has an interest. If the Procurement Officer does not exercise this right, the contractor shall use best efforts to sell such supplies and manufacturing materials in accordance with the standards of Uniform Commercial Code Section 2-706. Utilization of this Section in no way implies that the State has breached the contract by exercise of the Termination for Convenience Clause.
- (4) Compensation.
 - (a) The contractor shall submit a termination claim specifying the amounts due because of the termination for convenience together with cost or pricing data required by Section 11-35-1830 bearing on such claim. If the contractor fails to file a termination claim within one year from the effective date of termination, the Procurement Officer may pay the contractor, if at all, an amount set in accordance with Subparagraph (c) of this Paragraph.
 - (b) The Procurement Officer and the contractor may agree to a settlement and that the settlement does not exceed the total contract price plus settlement costs reduced by payments previously made by the State, the proceeds of any sales of supplies and manufacturing materials under Paragraph (3) of this clause, and the contract price of the work not terminated;
 - (c) Absent complete agreement under Subparagraph (b) of this Paragraph, the Procurement Officer shall pay the contractor the following amounts, provided payments agreed to under Subparagraph (b) shall not duplicate payments under this Subparagraph:
 - (i) contract prices for supplies or services accepted under the contract;
 - (ii) costs reasonably incurred in performing the terminated portion of the work less amounts paid or to be paid for accepted supplies or services;
 - (iii) reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders pursuant to Paragraph (2) of this clause. These costs must not include costs paid in accordance with Subparagraph (c)(ii) of this paragraph;
 - (iv) any other reasonable costs that have resulted from the termination. The total sum to be paid the contractor under this Subparagraph shall not exceed the total contract price plus the reasonable settlement costs of the contractor reduced by the amount of payments otherwise made, the proceeds of any sales of supplies and manufacturing materials under Subparagraph (b) of this Paragraph, and the contract price of work not terminated.
 - (d) Contractor must demonstrate any costs claimed, agreed to, or established under Subparagraphs (b) and (c) of this Paragraph using its standard record keeping system, provided such system is consistent with any applicable Generally Accepted Accounting Principles.
- (5) Contractor's failure to include an appropriate termination for convenience clause in any subcontract shall not
 - (i) affect the State's right to require the termination of a subcontract, or
 - (ii) increase the obligation of the State beyond what it would have been if the subcontract had contained an appropriate clause.
- (c) **For cause:** In the event of a material breach by the Contractor or a material breach by a subcontractor, at any tier, the Procurement Officer shall give written notice specifying the material breach. SCEL would regard any deviation from the requirements of the Contract that is neither trivial nor innocent as being material. Such deviations are evaluated on an instance-by-instance basis. If such a notice of material breach is given and the Contractor has not, at any subcontractor tier, begun correction of the material breach within five (5) days or

has not substantially corrected the material breach within thirty (30) days of receipt of the written notice, the Procurement Officer shall have the right to unilaterally and immediately terminate this Contract in whole or in part and obtain alternate services hereunder without further notice. SCEL reserves the right to purchase any and all products or services or other items thereafter in the open market, charging the Contractor with any additional costs and to draw against the security pursuant to this Contract for this purpose. Should such charge be assessed, no subsequent proposals of the defaulting Contractor will be considered until the assessed charge has been satisfied. Additionally, SCEL shall have a similar right of rescission in any instance where the Contractor provides or seeks to provide any services for a price higher than that specified in the Contract, without regard to cause, including governmental or regulatory intervention and insistence. In case of rescission, revocation, or termination, all documents and other materials of SCEL relating to performance are the property of SCEL. Failure by SCEL to exercise its rights to terminate under this provision shall not be construed as a waiver of its rights to terminate, rescind, or revoke the services herein in case of any subsequent breach.

The rights and remedies of the State in this clause are in addition to any other rights and remedies provided by law or under this Contract.

TRANSITION PLAN

1) Transition. Contractor shall perform the services required to smoothly transfer responsibility for the services to be transitioned from the State to Contractor (the "Transition Services"), including those described in the Transition Plan set forth in Contractor's Proposal (the "Transition Plan").

2) Detailed Transition Plan. Contractor shall prepare and deliver to the State a more detailed version of the Transition Plan for the State's review, comment and approval within thirty (30) business days after the award date. The proposed detailed Transition Plan shall describe in greater detail the specific transition activities to be performed by Supplier, but shall be consistent in all respects with the Transition Plan attached to the Proposal. Contractor shall address and resolve any questions or concerns the State may have as to any aspect of the proposed detailed Transition Plan and incorporate any modifications, additions or deletions to such Transition Plan requested by the State. Contractor's detailed Transition Plan as approved by the State in writing shall be appended to and incorporated in the Contract.

3) Performance. Contractor shall perform the Transition Services described in the Transition Plan in accordance with the timetable and the Transition Milestones set forth in the Transition Plan. Supplier shall perform the Transition Services in a manner that will not disrupt the business or operations of the State or degrade the Services then being received by the State, except as may be otherwise expressly provided in the Transition Plan. Prior to undertaking any transition activity, Contractor shall discuss with the State all known material risks and shall not proceed with such activity until the State is reasonably satisfied with the plans with regard to such risks (provided that neither Contractor's disclosure of any such risks to the State, nor the State's acquiescence in Supplier's plans, shall operate or be construed as limiting Contractor's responsibility under the contract). Contractor shall identify and resolve, with the State's reasonable assistance, any problems that may impede or delay the timely

4) Failure to Meet Transition Milestones.

a) If Contractor fails to meet a Transition Milestone, Contractor shall pay the State any Fee Credits specified in the Transition Plan for such Transition Milestone.

b) Neither the Transition Services nor the activities and deliverables associated with individual Transition Milestones will be deemed complete until Acceptance of such activities and deliverables by the State, in writing.

c) In addition to any Fee Credits due the State, if Contractor fails to meet the mutually agreed upon adjusted date specified for any Transition Milestone, Contractor shall not be entitled to any further compensation for work associated with such Transition Milestone after such adjusted date.

VII. TERMS AND CONDITIONS -- C. ADDITIONAL

ATTORNEYS' FEES

Contractor shall pay attorneys' fees, costs and other items as set forth in S.C. Code Ann. § 59-150-300(E). Further, in the event of a Contract controversy pursuant to S.C. Code Ann. § 11-35-4230 or any litigation between the parties, SCEL, if it prevails in whole or in part, may seek attorneys' fees from the Contractor and the Contractor will pay to SCEL such attorneys' fees as may be awarded. Contractor will, in all instances, bear its own attorneys' fees and expenses.

CONTRACT INTERPRETATION

(a) In the event there are any disagreements between the parties with regards to the application of this Contract or the requirements of SCEL arising from any interpretation of the Request for Proposal, this Contract, or any other matter that is subject to resolution as provided in S.C. Code Ann. § 11-35-4230, Contractor agrees to defer to the reasonable interpretations of SCEL as from time to time may be made by SCEL (See Section 3.0). This provision applies to all matters including those arising from disputes concerning whether Contractor is required to provide some service or item including scope of work issues and whether particular items or services were included in the scope of work agreed to by the parties in this Contract or otherwise. In summary, if both parties have a reasonable interpretation regarding application of the Contract, Contractor agrees to defer to SCEL's interpretation.

(b) The above requirements shall apply to any Change Orders, Contract modifications, or other deviations to this Contract. Failure to receive the prior written and express approval of SCEL prior to implementing any changes to the requirements provided for hereunder, for which requests for extra or additional compensation are thereafter submitted by the Contractor to SCEL, shall impose no liability for payment upon SCEL and may be rejected by SCEL without recourse.

CONTRACTOR ERROR LIABILITY

The Contractor will be liable for any specific and definite financial obligations arising because of errors and faults caused by the Contractor's or any subcontractors. The Contractor will promptly pay all costs for any such error and shall pay any additional cost(s) incurred by SCEL upon determination by SCEL, in its sole discretion, that such an error has occurred. To the extent possible, in SCEL's sole judgment, SCEL will allow the Contractor to review the error before payment. However, some errors may not be discovered until after payment. To the extent possible, SCEL will notify and involve the Contractor of instances where SCEL becomes aware of an action or event that may result in the liability of the Contractor. Although determined on a case-by-case basis, an error or fault would generally be the result of any deviation from the Contract obligations causing a financial loss such as but not limited to the payment of a prize or prizes when not owed or entitled to be paid or failure to pay a prize when it is owed. In the event of any dispute as to whether the error was caused by the Contractor, the presumption will be that it was, which presumption can be overcome only by clear and convincing evidence that the error or other causative factor was beyond the custody, control, or influence of the Contractor. The Contractor may seek to be reimbursed for amounts paid in prizes and other costs under the dispute resolution provisions.

DUTY TO NOTIFY SCEL OF FRAUD

The Contractor shall notify SCEL of any and all lottery participant or lottery retailer fraud that is discovered. The State does not expect notification of an activity of which the Contractor is unaware. The State does expect that the Contractor notify SCEL of any lottery participant or lottery retailer that they, or their subcontractor, become aware of or suspects that fraudulent activities are occurring, or are about to occur. Failure to comply with this requirement will render the Contractor liable for reimbursement to SCEL for payments made which were the results of such fraud.

FIDELITY BOND

a) The Primary Contractor is required to maintain a Fidelity Bond in the amount of five hundred thousand (\$500,000) dollars covering any loss to the State during the life of the Contract due to any fraudulent or dishonest act on the part of the Primary Contractor, and any officer, employee, agent, subcontractor, or assignee of the Primary Contractor. Proof of coverage must be provided to SCEL no later than ten days after the Award of this Contract becomes final.

b) Any Subcontractor will be required to maintain, during the life of the Contract, a Fidelity Bond in the amount

of five hundred thousand (\$500,000) dollars covering any loss to the State due to any fraudulent or dishonest act on the part of the Subcontractor, and any officer, employee, agent, subcontractor or assignee of the Subcontractor. Proof of coverage must be provided to SCEL no later than the date of execution and then shall continue during the term of this Contract unless SCEL provides a written release of this requirement to the Subcontractor.

c) Each Contractor must provide evidence of coverage to SCEL annually.

SECURITY VIOLATION REPORTING

The Contractor shall immediately notify SCEL of any Contractor Personnel, Subcontractor, or Third Party suspected or actual internal or external security violation, violation of law (e.g., theft), or disappearance of any material used or to be used in the performance of this Contract.

INTELLECTUAL PROPERTY INFRINGEMENT AND INDEMNIFICATION

a) Indemnification -- The Contractor shall indemnify and hold harmless the State of South Carolina, SCEL, its commissioners, officers, directors, agents, retailers, and employees, from and against any and all allegations or claims, liabilities, losses, damages, judgments, costs or expenses of any nature or kind, including, without limitation, court costs and attorney fees, by third parties arising out of, in connection with, or arising out of the performance of this Contract by Subcontractor, its employees, and agents and enjoyment of any intellectual property rights and data rights transferred to SCEL pursuant to the terms of this Contract.

b) Infringement – Both parties, upon learning of an allegation or claim against either of them, both of them, or their respective employees and agents and which allegation or claims is related to the subject matter of this Contract, shall give the other prompt written notice thereof. Contractor shall have full right and opportunity to conduct the defense thereof, together with full information and reasonable cooperation from SCEL. If principles of governmental or public law are involved, SCEL may participate in the defense of any such action at its own expense. The Contractor, at its own expense, will otherwise defend any suit which may be brought against the state or SCEL to the extent that it is based on a claim that the goods and/or services furnished through a Contract that infringes an Intellectual Property Right and in any such suit will pay those costs and damages which are attributable to such claim and finally awarded against SCEL. No cost or expenses for such defense shall be incurred by the Contractor for the benefit of SCEL without SCEL's written consent.

Pursuant to S.C. Code Ann. § 59-150-300(E), each Offeror must submit with its Proposal, ~~in Section 9.10, not as a part of the response to Part IV~~, a litigation bond or a standby irrevocable letter of credit (Litigation Bond) in the amount of two hundred and fifty thousand dollars (\$250,000.00). A claim upon the bond may be made by SCEL if:

- (a) The Offeror brings any proceeding against SCEL, the State of South Carolina, or any of their officers, employees, other Contractors, or retailers regarding any matter relating to or arising out of the Solicitation, or award of a Digital Engagement Solution Contract as permitted by South Carolina law. For purposes of this provision, any proceeding includes those undertaken pursuant to the S.C. Procurement Code or in any court; and
- (b) The Offeror is not the prevailing party in such proceedings and/or the appeal of any such proceeding; and in the instance of any final agency decision is determined by the reviewing court to be without merit.

The purpose of the Litigation Bond is to permit SCEL or other defendants to recover damages, including compensation for SCEL or State staff time, attorneys' fees, lost SCEL revenues, expenses, and court costs resulting from such litigation. The litigation bond shall remain in effect until an award is made and is final, i.e. all times for protest or other challenges have expired and/or the protest is final and not subject to further appeal.

REMEDIES

All remedies are cumulative including injunctive relief. Contractor understands and agrees that SCEL will be entitled to any relief recognized herein or at equity or at law to make the State or SCEL whole as the result of any breach, termination, or other claim asserted by SCEL against the Contractor, including, but not limited to: the cost(s) of acquiring and obtaining alternative sources of supply for goods and/or services; SCEL staff time or in kind cost(s) attributable to the Contractor's breach or other form of non-performance; reimbursement for outside consultants, including attorneys, to advise SCEL as a result of the Contractor's breach or other form of non-performance; loss of revenue or funds from any other source; investment proceeds or opportunity costs; and the like. There is no limitation on liability in this Contract favoring the Contractor.

SEVERABILITY

If any term or provision of this Contract is found to be illegal or unenforceable, then, notwithstanding any such illegality or unenforceability, the remainder of the Contract shall remain in full force and effect and such term or provision shall be deemed to be deleted and severable.

CUSTOMER ACCEPTANCE TEST

Although it is common practice for SCEL to conduct its own Customer acceptance tests, SCEL is not obligated to conduct any test, and the Contractor remains fully responsible for the quality of the app produced and the reliability of the game data file(s) provided.

USUFRUCT

If, for any reason other than breach of Contract by SCEL, the Contractor should lose its ability to service the Contract resulting from this RFP, SCEL shall acquire a usufruct in all contractual items owned by the Contractor in conjunction with the Contract and which are necessary to provide such services.

SOURCE CODE ESCROW

To protect the Lottery's ability to operate the Digital Engagement Solution in case of the Contractor's inability to fulfill its contractual obligations, the Lottery requests the Contractor to place its source code in escrow as follows:

1. The Contractor is required to provide a current copy of the unencrypted source code and executable code for the entire software including all proprietary software owned by the Contractor and/or any of its subcontractors that are required for the full operation and performance of the Digital Engagement Solution.
2. The Contractor must deposit the software and all required documentation with a third-party escrow agent, on a yearly basis and whenever requested by SCEL.
3. The Contractor agrees to invoice SCEL for the escrow account at cost without markup.
4. The escrow agreement shall authorize the escrow agent to release and make available to SCEL, with full rights, any content of the escrow account to the extent necessary for SCEL to continue to support the Digital Engagement Solution or any component thereof upon Contractor or subcontractor: (i) breach of the contract as defined elsewhere in this contract; (ii) filing for bankruptcy or appointment of a receiver, or (iii) announcement of discontinuance of support or; (iv) failure to continue to support the Digital Engagement Solution of any component thereof.
5. SCEL may, at any time, in its discretion and at its own expense, require the verification of the escrow source code and documentation by the Escrow agent or by other third parties acceptable to SCEL and the Contractor and/or subcontractor as applicable.
6. Within ninety (90) days of contract award notice, the Contractor must identify their third-party escrow agent with all applicable contact information.

LIQUIDATED DAMAGES

S. C. Code § 11-35-30 imposes an obligation of good faith and fair dealing upon both parties. These principles are incorporated into Section 7.49(a). A working relationship where mutual trust is expected and cultivated is extremely beneficial to both parties. SCEL strives for this type of relationship in all of its interactions with a Contractor. Fostering this type of relationship may not avoid the imposition of liquidated damages but it should help to ensure that the process ends with an appropriate conclusion. If the Contractor disagrees with the result, the dispute may be resolved as provided in S. C. Code § 11-35-4230. See also Section 3.0.

(a) **Liquidated Damages Provisions.** In all the below liquidated damages sections, SCEL and the Contractor agree that it would be extremely impractical and difficult to determine actual damages which SCEL would sustain, including those that negatively affect the image and reputation of SCEL. The goods and services to be provided under the Contract are not readily available on the open market and the occurrence of any of the events covered below may delay and disrupt SCEL's operations and lead to damages. Therefore, the parties agree that the liquidated damages as specified in all the sections below are reasonable and are not to be construed or applied as a penalty. Liquidated damages are not intended as either a penalty against the Contractor or windfall to SCEL. The application of liquidated damages will be determined on a case-by-case basis taking into consideration the severity of the occurrence, the number of times the same or similar events have occurred, the Contractor's response to the occurrence and overall fairness to the interests of both the Contractor and SCEL, and the estimated losses, with

the understanding that SCEL's decisions are at its sole discretion. Assessment of liquidated damages shall be in addition to, and not in lieu of, such other remedies as may be available to SCEL. Except and to the extent expressly provided herein, SCEL shall be entitled to recover liquidated damages under each section applicable to any given incident. The Contractor shall continuously capture the information necessary and appropriate to determine whether any of the circumstances giving rise to the imposition of liquidated damages hereunder has occurred. **Note:** Remedies under the Contract are not limited to liquidated or other monetary damages and include remedies such as specific performance, injunction, termination, etc.

(b) **Notification of Liquidated Damages:** Upon determination that liquidated damages are to (or may) be assessed, SCEL shall notify the Contractor of the assessment in writing. The availability of any period of cure will depend on the situation and will be in the sole discretion of SCEL.

(c) **Conditions for Termination of Liquidated Damages:**

i. As determined appropriate by SCEL, the following are the conditions under which the Contractor may obtain relief from the continued assessment of liquidated damages.

ii. Unless waived in writing by SCEL, no liquidated damages imposed shall be terminated or suspended until the Contractor issues a written notice verifying the correction of the condition(s) for which liquidated damages were imposed and all corrections have been subjected to Digital Engagement Solution testing or other verification at the discretion of SCEL.

iii. As appropriate, the Contractor shall conduct Digital Engagement Solution testing of any correction as SCEL deems necessary. Such testing shall be developed jointly by SCEL and the Contractor and must be approved by SCEL, including the test script, test environment, and test results. Notice of correction will not be accepted until verified by SCEL.

(d) **Severability of Individual Liquidated Damages:** If any portion of the liquidated damages provisions is determined to be unenforceable in one or more applications, that portion remains in effect in all applications not determined to be invalid and is severable from the invalid applications. If any portion of the liquidated damages provisions is determined to be unenforceable, the other provision(s) shall remain in full force and effect.

(e) **Waivers of Liquidated Damages:** The waiver of any liquidated damages due SCEL shall constitute a waiver only as to such liquidated damages and not a waiver of any future liquidated damages. Failure to assess liquidated damages or to demand payment of liquidated damages within any period of time shall not constitute a waiver of such claim by SCEL.

(f) **Payment of Liquidated Damages:** Assessed liquidated damages will be deducted from the Fixed Monthly Fee first, then, if necessary, from the Performance Bond. In the event the amount due the Contractor is not sufficient to satisfy the amount of the liquidated damages, SCEL will continue to deduct monies until the amount due is paid in full. The parties may agree to modify the payment schedule.

(g) **Applicability of Liquidated Damages and Pro-Rata Liquidated Damages:** The Contractor shall not be required to pay liquidated damages for delays solely due to matters affected by force majeure or for time delays specifically caused by or approved by SCEL or SCEL's third party. In all the below liquidated damages sections, the damages shall be pro-rated for partial periods.

(h) **Conversion and Startup**

i. **Condition:** Contractor shall complete, except as otherwise approved by SCEL, all agreed upon implementation tasks and deliverables required pursuant to Sections 3.1 through 3.6 (and Part III generally), and in accordance with the Conversion Plan as presented in response to Section IV. INFORMATION FOR OFFERERS TO SUBMIT.

ii. **Damages:** SCEL may impose liquidated damages for each calendar day of delay as follows:

(1) Unresolved errors or failures preventing CAT successful completion as specified in the conversion plan – up to ten thousand dollars (\$10,000).

(2) Startup delays beginning with the Contract-agreed production Cutover Date - Up to one hundred thousand dollars (\$100,000).

(i) **Timely Deliverables**

i. **Condition:** Every deliverable must be available on schedule as agreed upon by the parties.

ii. **Damages:** Up to one thousand dollars (\$1,000) per day per deliverable.

(j) **Digital Engagement Solution Down and/or Degraded Performance**

i. **Condition:** The Digital Engagement Solution shall be defined to be "down" if there is a total Network outage, application failure, or any other condition that prevents:

(1) the occurrence of key transactions, such as ticket scanning, drawing entry, drawing services, and/or mobile claims if and when such function becomes available.

ii. **Condition:** The Digital Engagement Solution shall suffer "degraded performance" when the system can process in full or in part transactions from some and/ or all devices, but not for all products involving ticket scanning, drawing entry, and/or mobile claims if and when such function becomes available

iii. **Damages:** For either condition identified above in Digital Engagement Solution "down" or "degraded performance", SCEL may assess up to one day's pay for every twenty-four (24) hours the Digital Engagement Solution is "down" or "degraded performance" based on the fixed monthly fee or a prorated portion thereof per incident. The Contractor has a grace period of twenty-four (24) hours to resolve any and all issues causing the Digital Engagement Solution "down" or "degraded performance" condition. To address chronic problems, in the event that two (2) downtime events ("down" or "degraded performance") of any length have already occurred in any seven (7) day period, the grace period of twenty-four (24) hours shall be rescinded. Alternative methodologies for calculation of liquidated damages will not be considered.

(k) Failure to Produce an Administrative Software Change

i. **Condition:** The Contractor shall modify or add software to produce reports, screen displays, inquiries, and other administrative applications in accordance with an agreed upon release schedule. The Contractor's change must complete CAT and receive SCEL's written approval, within the time frame specified therein.

ii. **Damages:** Up to five hundred dollars (\$500) per day that the modified or additional software is not installed.

(l) Unauthorized Software/Hardware Modifications

i. **Condition:** The Contractor shall not modify any software or hardware without the prior, authorized written consent of SCEL. "Modification" does not include replacement of a Digital Engagement Solution component with an essentially similar working component in the event of necessary maintenance.

ii. **Damages:** Up to ten thousand dollars (\$10,000) per violation in addition to any other damages that may occur because of such unauthorized modification.

(m) Unauthorized Access or Compromise

i. **Condition:** The Contractor shall preclude personnel, not authorized by SCEL, from accessing, modifying, or otherwise interfering with the Digital Engagement Solution, and any data or software. Each person and every act that permits access, modification, or interference by an unauthorized person is an incident.

ii. **Damages:** Up to five thousand dollars (\$5,000) per person, for each incident.

(n) Failure to Report Incidents

i. **Condition:** The Contractor shall be responsible to immediately report all significant incidents as related to any facet of the Digital Engagement Solution to include PAM, ticket scanning, rewards program, security violations, drawing services and mobile claims, if and when it becomes available... The immediate reporting shall be delivered personally or by telephone and email within one (1) hour of the discovery of the incident, followed by a letter addressed to the SCEL Contract Administrator, within forty-eight (48) hours of the incident. Any situation which may cause the public to become alarmed and/or which may damage the integrity of the public image of SCEL must be reported.

ii. **Damages:** In the event that the Contractor fails to report incidents, SCEL may impose up to five thousand dollars (\$5,000) per calendar day until the incident is correctly reported.

(o) Failure to Provide Software Testing and Quality Software Turnovers

i. **Condition:** The Contractor must provide a quality assurance test plan, a report on the quality assurance test, and quality tested software in accordance with the agreed upon release schedule.

ii. **Damages:** Up to five thousand dollars (\$5,000) for each violation (return or retraction of the software).

(p) CAT environment

i. **Condition:** If applicable all integral parts of the CAT environment must be made available by the Contractor for the use of SCEL at the beginning of, and during normal business hours. This includes the CAT server(s), all communication types, and requested data as agreed by the Contractor and SCEL.

ii. **Damages:** Up to one thousand dollars (\$1,000) may be assessed per day.

(q) Failure to Comply with Proper Digital Engagement Solution Procedures

i. **Condition:** If, without prior authorization, the Contractor deviates from specific instructions, usual, customary, or established operating procedures and that deviation disruption to the player base, SCEL may assess liquidated damages.

ii. **Damages:** Up to ten thousand dollars (\$5,000) per occurrence.

SECURITY BREACH

Upon discovery of any breach of security experienced by the Contractor, Subcontractor, or any related third parties during the term of this Contract, especially theft or disappearance of program files, digital information, or other

electronic media, the Contractor must immediately notify SCEL's Executive Director, or a designee, and the Director of Security, or a designee. Any breach of security relating to data, storage, access, control, or distribution must be immediately reported. This notice must also be followed by a written incident report detailing the specifics of the occurrence and what steps have been taken to correct the problem. SCEL will be the sole judge of the adequacy of the steps taken and reserves the right to specify other steps to be taken.

SCEL reserves the right to require, at any time, such further and additional security measures it deems necessary or appropriate to ensure the integrity of the operation of SCEL or the Contractor.

SCEL reserves the right, at any time and without prior notice, to expand its background investigation and to inspect and otherwise evaluate all phases of performance specified in this Contract.

Additionally, please clarify if all responsive Offerors who submit a proposal automatically proceed to the live demonstration phase, or if the Lottery will use a preliminary evaluation process to determine which proposals advance to the demonstration stage.

Response: No Change. Section VI. AWARD CRITERIA - Demonstration is clear and unambiguous. Offerors that are responsive and meet the Special Standards of Responsibility outlined in Section V. Qualifications, QUALIFICATIONS - SPECIAL STANDARDS OF RESPONSIBILITY (MAR 2015) will provide a live demonstration. Please refer to the revision in Section VI. AWARD CRITERIA, DEMONSTRATIONS.

Response: Additional Options and Innovations will be evaluated. See revision to Section VI. AWARD CRITERIA.

Response: See Amendment to Section V. QUALIFICATIONS, SUBCONTRACTOR IDENTIFICATION.

Permitting links to design tools would allow the Lottery to review interactive design flows, clickable prototypes, and responsive layouts in a more complete and realistic format than static images alone, while still preserving the written proposal as the official submission record. If links to design tools are not allowed, will the Lottery consider increasing the page limitation from 100 to 250 pages?

Response: Offerors are prohibited from including hyperlinks, URLs, or other external web-based references in their submissions. All required information must be fully contained within the proposal documents submitted in response to this solicitation. SCEL will not increase page limitations, however Offerors may include any necessary screenshots as an attachment to their offer. See Section II. INSTRUCTIONS TO OFFERORS -- B. SPECIAL INSTRUCTIONS for added language. SCEL will permit full-size images such as screenshots in the attachments section outside the page limitation in your proposal.

79. **Question** – Can SCEL identify which interfaces between the DES and the Gaming System will be provided by SCEL or the CGS Contractor and which interfaces are expected to be developed by the DES Contractor?

Response: No change. Section 3.1.F is clear and unambiguous.

80. **Question** – The RFP states that the Contractor must successfully demonstrate readiness to 'go live' by August 9, 2027, and separately states that the five-year performance term begins on the Cutover Date when the mobile application goes live. Will the Lottery confirm that the five-year performance term begins on the actual date the mobile application goes live (the "Cutover Date")?

Response: Refer to Section III. SCOPE OF WORK/SPECIFICATIONS, 3.1 MOBILE APPLICATION AND WEB PLATFORM, G. DELIVERY SCHEDULE REQUIREMENTS, 2. b. SCEL reserves the right to negotiate this section.

81. **Question** – Section IV.D.1 and D.3 appear to request the same information regarding Section 3.3.A. May Offerors provide one response and cross-reference it rather than duplicate the content?

Response: Offerors may cross-reference it rather than duplicating the content.

82. **Question** – Please clarify where Offerors should respond to the requirements in Section 3.3.C. Should these requirements be addressed within Section IV.D or in a separate response?

Response: Refer to Section IV. INFORMATION FOR OFFERORS TO SUBMIT, Section 4 Attachments. While 3.10 is a contract requirement, no response is needed for 3.10. Submit hourly rate for development services in the cost proposal.

86. **Question** – Section IV directs Offerors to include all specifications in Section 3.1.G.2(a)–(g); however, Section 3.1.G.2 contains items (a)–(f). Please confirm the requirements to be addressed in the Conversion Plan.

Response: See revision in Section IV, Section 2.B.7.

87. **Question** – Section IV.E.1 directs Offerors to address Section 3.4.A–F and then refers to customer support and resolution as specified in Section 3.4.G–H. Please clarify whether Offerors should respond to all requirements in Section 3.4.A–H.

Response: Yes, Offerors should provide answers to all requirements.

88. **Question** – The Bidding Schedule includes a separate line item for “Help Desk,” while the Scope of Work includes customer/player support requirements but does not appear to separately define the services to be provided under the Help Desk line item. Will SCEL please clarify whether “Help Desk” and customer/player support are intended to be the same service? If not, please define the scope of services to be included in the Help Desk pricing line item.

Response: See revision to Attachment C.

89. **Question** – The "Offshore Contracting Prohibited (Modified)" clause states that "no part of the resulting contract from this solicitation may be performed offshore... without express approval of SCEL." Please clarify the scope and approval process: (a) Does this prohibition apply only to the Contractor's direct employees and personnel performing services under the contract, or does it also extend to subcontractors, suppliers, and licensors of commercial software or third-party services incorporated into the solution (including cloud infrastructure, SaaS platforms, and hosted services)? (b) If the prohibition extends to subcontractors and vendors, does it apply only to those subcontractors/vendors whose personnel directly handle SCEL data or systems, or does it apply to all subcontractors and vendors at any tier regardless of function? (c) Does the offshore prohibition differ based on environment—specifically, does it apply equally to production environments and non-production environments (development, testing, staging)? For non-production environments that contain only test data or anonymized data (not live SCEL player data), does the restriction remain? (d) What is the process and timeline for requesting "express approval of SCEL" for any offshore work? (e) Does "performing services" apply to source code?

Response: SCEL will provide all approval information to the Contractor.

90. **Question** – The noted sections require the Contractor to integrate with third-party vendors and services for identity verification, geolocation compliance, KYC processing, prize fulfillment, and merchandise services. Given the RFP’s fixed pricing requirements, please clarify whether costs associated with these third-party services and vendor integrations, including but not limited to:
- Identity verification vendor fees
 - Geolocation service fees
 - KYC processor fees
 - Prize fulfillment vendor fees, including redemption processing, fulfillment logistics, and inventory management
 - Merchandise procurement and fulfillment costs for promotional drawings and rewards redemptions are to be:
 - (a) included within the Contractor’s Fixed Monthly Fee quoted in the Cost Proposal; or
 - (b) treated as pass-through costs reimbursable separately by SCEL based on actual volumes and true-up against documented third-party invoices?

Response: Offerors are to include “Fixed Monthly Fee” pricing in the Cost Proposal.

91. **Question** – Geolocation must allow account creation “anywhere within the United States” while restricting activity by geolocation. As no online ticket sales are currently authorized, please clarify which player activities (if any) SCEL expects to be geo-restricted for the initial migration/switchover? For Mobile Claims, is SCEL seeking certain actions to be restricted as well?

Response: Currently, SCEL utilizes geolocation solely for purposes of sending geographically targeted marketing messages and push notifications.

92. **Question** – As it relates to Geolocation costs factored into the pricing sheet, can SCEL provide annual volume estimates based on current program activity? If no volume estimates can be provided, may respondents price Geolocation as a variable-cost line item based upon usage rates as determined by SCEL?

Response: SCEL cannot provide annual volume estimates at this time. Currently, SCEL utilizes geolocation for purposes of sending geographically targeted marketing messages and push notifications. SCEL reserves the right to negotiate this section.

93. **Question** – There are industry solutions that allow a lottery to work with any given web/app provider but integrate best-of-breed features from third-party providers. As such, would SCEL consider amending the bid to allow for partial/multiple awards for web/app componentry listed in Optional Services / Optional Pricing?

Response: No, SCEL will not consider amending the solicitation to allow for partial/multiple awards for web/app componentry listed in Optional Services / Optional Pricing.

94. **Question** – Will SCEL accept transaction-based pricing (e.g., \$X per mobile claim paid) under any circumstances? Or must all pricing be submitted as an all-inclusive price per year?

Response: Offerors are to include “Fixed Monthly Fee” pricing in the Cost Proposal.

95. **Question** – The pricing template, Attachment C, provides separate lines for Hosting versus Cloud Subscription Services. Can SCEL clarify in a cloud hosted environment, such as AWS, how/where those fees should be placed in relation to these two options?

Response: See revision to Attachment C.

96. **Question** – The pricing template, Attachment C, provides separate lines for Customer Support for SCEL (line 14) versus Help Desk for Player Support (line 15). Can SCEL clarify the services to be separated between these two line items?

Response: Refer to Attachment C document.

97. **Question** – The pricing template, Attachment C on the Hourly Labor Rates worksheet, has sixteen pre-populated job titles. Are each of these pre-existing titles required for pricing? Or may the entire list be adapted by each respondent to match their roles and business units?

Response: The hourly rates worksheet tab has been modified. Please refer to the revised Attachment C document.

98. **Question** – Sections 3.3.B.1, 3.3.B.3, and 3.3.B.10 require drawing services to be performed, certified, and documented in strict compliance with “SCEL Draw Procedures”; however, the reissued solicitation does not include or define the SCEL Draw Procedures, and Section IX lists no drawing-procedures attachment.

(Cancelled solicitation RFP-07022026-DES referenced “SCEL Draw Procedures as provided in Section IX – Attachment D,” and its Attachment D, labeled “SAMPLE,” contained the SCEL Second Chance Drawing Procedures and SCEL Coin For Drawings Procedures, which referenced specific proprietary applications, systems, file paths, personnel roles, and a drawing facility associated with the current provider.) Will SCEL provide the current SCEL Draw Procedures applicable to this Contract, or confirm that the prior Attachment D remains a representative example of the drawing controls and integrity standards SCEL expects? Will SCEL further confirm that the awarded Contractor may propose and operate equivalent drawing procedures using its own or its subcontractor’s certified systems and facilities — subject to review and approval by SCEL’s Director of Security — rather than being required to replicate the specific applications, systems, and locations named in the prior Attachment D?

Response: SCEL will not provide current "SCEL Draw Procedures". See Section 4.2.D.2

99. **Question** – Regarding Sections 3.3.B.8–9 (Contractor’s sole responsibility for drawing equipment and technology) and Section 3.1.G (Conversion Plan): Does SCEL currently own, license, or hold usage rights to any drawing, random-number-generation, draw-integrity, or draw-audit technology that the awarded Contractor would be permitted or expected to use, integrate with, or be provided in order to conduct drawings? Relatedly, will any drawing systems, tools, certifications, historical entry data, or draw-integrity technology used for the current Player Rewards Program transfer to, or be made available to, the awarded Contractor at transition, or must the Contractor independently provide all drawing technology?

Response: No Change. Section is clear and unambiguous.

100. **Question** – For Sections 3.3.B.4–6 (secure storage of drawing equipment and technology, access logging for the secure location where SCEL’s drawings occur, and video/audio recording of drawing room access and activities): Will SCEL permit drawings to be conducted at an SCEL-designated or SCEL-provided secure facility, or at a secure facility operated by a qualified drawing subcontractor, rather than requiring the Contractor to establish and operate a new dedicated drawing location? Does SCEL have any requirement as to the geographic location of the secure drawing facility (e.g., within South Carolina), beyond the continental United States requirements of the “Information Security – Location of Data” and “Offshore Contracting Prohibited” clauses?

Response: No, SCEL will not provide the Contractor a location.

101. **Question** – Section 3.3.B.3 requires an independent auditor, at the sole expense of the Contractor, to be “physically present” at each drawing. The SCEL drawing procedures provided as Attachment D to cancelled solicitation RFP-07022026-DES provided (at Section 2.1 of each procedure document) that the auditor “must be present (either physically or virtually).” Will SCEL confirm whether virtual attendance and certification by the independent CPA auditor satisfies Section 3.3.B.3, or whether physical presence is required at each of the approximately 53 annual drawings? In addition, does SCEL currently engage or prefer a specific independent CPA firm for drawing certification that Offerors should plan to work with or budget for, or must the Contractor competitively procure and engage its own independent auditor?

Response: No, SCEL will not provide a firm for drawing certification and the auditor must be physically present.

102. **Question** – For the winner- and alternate-selection technology addressed in Sections 3.3.B.8–9, and the certified Random Number Generator referenced in Section 3.1.D.4.b: Does SCEL require the random number generator or secure draw system to hold a specific independent certification (for example, a GLI standard such as GLI-19 or GLI-31, the MUSL RNG standard, or an ISO certification)? Will SCEL accept a commercially certified, third-party secure draw system that is licensed to, or operated on behalf of, the Contractor or its drawing subcontractor as satisfying the equipment, technology, certification, and sole-responsibility requirements of Section 3.3.B?

Response: SCEL will not accept a third-party secure draw system.

103. **Question** – Will SCEL permit the drawing-services scope in Section 3.3.B to be performed by a specialized drawing subcontractor identified in the proposal pursuant to the “Subcontractor – Identification” provision in Section V? Under the 300-point “Qualifications and Experience” criterion in Section VI, will a drawing subcontractor’s directly relevant state-lottery drawing experience be credited to the Offeror on the same basis as the Offeror’s own experience? Finally, does SCEL require the drawing-services provider to possess a minimum level of prior lottery drawing experience (e.g., a minimum number of years or jurisdictions), or will a qualified provider operating certified systems under SCEL-approved procedures be acceptable regardless of lottery-specific tenure?

Response: SCEL will not accept a third-party secure draw system.

104. **Question** – Section 3.3.B.1 requires “unlimited drawing services,” and the Current Digital Platform overview references approximately 53 annual drawings and 475,000 registered players. To allow Offerors to appropriately size drawing operations, the independent auditor engagement, and secure-facility requirements, and to support pricing: Will SCEL confirm the current and anticipated annual number of promotions and drawings, the typical volume of entries and entrants per drawing, and the typical number of prizes and alternates per drawing? For prize fulfillment under Section 3.3.B.11, does SCEL fund prize costs (merchandise, trips, gift cards) with the Contractor providing fulfillment logistics, and what annual fulfillment volume is anticipated?

Response: Refer to ATTACHMENT D: Players' Club Data.

105. **Question** – Regarding the Current Digital Platform overview and Section 3.1.G (Conversion Plan): What CRM/marketing automation platform and email service provider underpin the current Player Rewards Program (confirming Optimove using SendGrid ESP), and will existing email templates, journey/automation configurations, creative assets, and suppression lists be made available to the successor Contractor during conversion?

Response: The current CRM/Marketing Automation Platform and ESP for SCEL is Optimove. Existing email templates, journey/automation configurations, creative assets, and suppression lists will not be made available to the successor Contractor during conversion.

106. **Question** – Section 3.1.A.1 requires migration of existing player accounts with no loss of activity, history, or SCEL Coin balance, and Section 3.5.A requires retention of the last three years of data as of go-live. Do these requirements include CRM engagement data (send/open/click history, channel preferences, opt-out records), and will the incumbent be required to provide these exports during conversion (see Section 3.1.G.2.f)?

Response: The requirements for the migration of existing player accounts with no loss of activity, history or SCEL Coin balance does not include engagement data like send/open/click history or channel preferences, but will include if a player has opted out of receiving marketing communications from SCEL.

107. **Question** – Regarding Sections 3.2.D.1–3: Does SCEL expect the Contractor to provide campaign strategy, creative development, copywriting, graphic design, and campaign execution as a managed service, or to provide a CRM platform that SCEL staff will operate? What annual volume of promotional campaigns and ad hoc communications should Offerors assume for pricing?

Response: SCEL expects the Contractor to provide campaign strategy, creative development, copywriting, graphic design, and campaign execution as a managed service. SCEL staff will assist the Contractor in these roles, but not as the party primarily responsible. The annual volume of promotional campaigns and ad hoc communications should be part of the Offeror’s recommended strategy.

108. **Question** – To support accurate volume-based pricing under Sections 3.2.D.3–4, can SCEL provide current opted-in player counts by channel (email, push, in-app, SMS) and total message volumes by channel for the trailing 12–24 months? Additionally, can SCEL provide the total number of unique players entering at least one ticket into the loyalty program each month over the past 12–24 months?

Response: SCEL does not have the number of opted-in player counts by channel or total message volumes by channel. Refer to Attachment D, Players' Club Data.

109. **Question** – Section 3.2.D.3 lists email, in-app messaging, and push notifications as required communication methods, while Section 3.2.D.4 requires opt-in/opt-out capabilities for promotional email messaging, text messaging, and push notifications. Is SMS a required channel at go-live, and does the Contractor or SCEL bear SMS delivery/carrier costs?

Response: Yes, it is a required channel at go-live. SCEL does not bear the responsibility for SMS costs.

110. **Question** – Regarding Sections 3.2.D and 3.1.A.4: Are automated, behavior-triggered lifecycle journeys (e.g., welcome series, lapsed-player re-engagement, jackpot alerts) and A/B testing and reporting capabilities expected within base scope? Additionally, what responsible gaming constraints apply to promotional communications, such as frequency caps or required suppression of self-excluded players across all channels?

Response: Automated, behavior-triggered lifecycle journeys and A/B testing are reporting capabilities expected within base scope. Currently, SCEL administers opt-out capabilities for player communications. RG constraints would be expected as part of the provided CRM platform.

111. **Question** – Regarding Section 3.3.A.8: What frequency of front-end artwork refreshes for the five-plus interactive loyalty games should be assumed in base pricing, and is development of new games beyond the initial five within base scope or billable under Section 3.10 (Development Services)?

Response: No change. Section is clear and unambiguous. Development of new games beyond the initial five within base scope is billable under development services.

112. **Question** – Regarding Section 3.5.B quarterly and yearly reporting on Players' Rewards and CRM performance, strategy, and trends: What KPIs will SCEL use to evaluate CRM and Rewards program performance during the contract term, and does SCEL have registered-player growth or engagement targets beyond the current 475,000 players?

Response: Contractor will advise SCEL on best practices and KPIs for the provided platform.

113. **Question** – Regarding Part IV, Section 3 (Experience and Qualifications), Item B, which requires the Offeror to explain in detail a successful CRM program including goals, results, and metrics (see also Part IV, Section 2.C.3), and the 300-point “Qualifications and Experience” criterion in Section VI: Will CRM program case studies and experience provided by an identified subcontractor be evaluated with equal weight to the prime Offeror’s experience? We note that Section VI references “Part IV. Information for Offerors to Submit subsection 4”; in the reissued solicitation, Experience and Qualifications is Part IV, Section 3, and Section 4 is Attachments. Please confirm the 300-point criterion will be evaluated against Part IV, Section 3.

Response: The company submitting the offer listed on Page One will be evaluated using the evaluation criterion outlined in Section VI. AWARD CRITERIA, EVALUATION FACTORS -- PROPOSALS (JAN 2006). Any subcontractors identified in your proposal will be reviewed for responsibility purposes. See revision in Section VI. AWARD CRITERIA, EVALUATION FACTORS -- PROPOSALS (JAN 2006).

114. **Question** - Section 3.2.D.3 provides that SCEL will approve all player communication before distribution. For automated, behavior-triggered, and transactional communications (e.g., lifecycle journeys, jackpot alerts, transactional emails), will SCEL's approval of the message templates and journey logic at setup satisfy this requirement, or is per-send approval required? What approval turnaround time should Offerors assume for campaign and ad hoc communications?

Response: For automated, behavior-triggered, and transactional communications, SCEL's approval of the message templates and journey logic at setup will satisfy this requirement. Offerors should expect to receive approvals from SCEL in a timely manner.

115. **Question** – Regarding Sections 3.3.C.2–4 (Winner Notification): May winner and alternate notifications and digital claim-form delivery be executed through the Contractor's CRM/email platform using secure links to an authenticated player portal, or does SCEL require a separate encrypted/secure email solution for these communications? Will the CGS vendor's integration specifications for the external winner file (secure API or flat file) be made available to the awarded Contractor during conversion?

Response: See Part IV, Section 2.G.1. See Section III Section 3.6.E.

116. **Question** – Administrative clarification regarding Attachments B and C: Section IX lists Attachment B as the Service Provider Security Assessment Questionnaire and Attachment C as the Cost Summary Spreadsheet; however, Part IV, Section 4.A refers to "Attachment C: Service Provider Security Assessment Questionnaire"; the Section VIII pricing instructions state "See Attachment B" for the presentation of all costs and direct Offerors to "complete and return Attachment B"; and the Section VI Value criterion states the evaluation panel will use "the response in Section VIII and Attachment B" when scoring. Will SCEL confirm that the posted Attachment C Cost Proposal workbook is the pricing document Offerors must complete and return with the Business Proposal, and that the Service Provider Security Assessment Questionnaire (Attachment B) is to be completed and returned with the Technical Proposal per Part IV, Section 4?

Response: See revisions in VIII. BIDDING SCHEDULE / PRICE-BUSINESS PROPOSAL, PRICE PROPOSAL (JAN 2006).

117. **Question** – Clarifications regarding the posted Attachment C Cost Proposal workbook: (a) The "Optional Services" worksheet directs Offerors to price optional features "in Response to Part 3.10 through 3.11" and states that unpriced options "will be included with the pricing for core services submitted in response to Part 4.2(1)," while Part IV, Sections 4.B–C label Additional Options as "Section 3.10" and Innovations as "Section 3.11"; in Part III, however, Section 3.10 is Development Services, Section 3.11 is Additional Options, and Section 3.12 is Innovations. Please confirm the intended section mappings for optional-services pricing and identify the provision intended by "Part 4.2(1)." (b) The "Hourly Labor Rates" worksheet states that Development Services pricing "will be inclusive of the scope of services in Section 3.1"; please clarify this statement, given that Section 3.10 defines Development Services as enhancements, customizations, or projects beyond the base scope, and confirm whether the proposed hourly rates will serve as binding not-to-exceed rates for change orders under Section 3.10.

Response: See revisions to Section VI. AWARD CRITERIA. Also, see revisions to Attachment C.

AMENDMENT 2

QUESTIONS FROM OFFERORS - AMENDMENT (JUN 2017)

THE SOLICITATION IS AMENDED AS PROVIDED HEREIN. INFORMATION OR CHANGES RESULTING FROM QUESTIONS WILL BE SHOWN IN A QUESTION-AND-ANSWER FORMAT. ALL QUESTIONS RECEIVED HAVE BEEN REPRINTED BELOW. THE “STATE’S RESPONSE” SHOULD BE READ WITHOUT REFERENCE TO THE QUESTIONS. THE QUESTIONS ARE INCLUDED SOLELY TO PROVIDE A CROSS-REFERENCE TO THE POTENTIAL OFFEROR THAT SUBMITTED THE QUESTION. QUESTIONS DO NOT FORM A PART OF THE CONTRACT; THE “STATE’S RESPONSE” DOES. ANY RESTATEMENT OF PART OR ALL OF AN EXISTING PROVISION OF THE SOLICITATION IN AN ANSWER DOES NOT MODIFY THE ORIGINAL PROVISION EXCEPT AS FOLLOWS: UNDERLINED TEXT IS ADDED TO THE ORIGINAL PROVISION. STRICKEN TEXT IS DELETED. [02-2A097-1]

1. **Question** – SCEL has established a Round 2 question submission deadline of September 17, 2026, at 5:00 PM ET, and a proposal submission deadline of October 16, 2026, at 11:00 AM ET. To assist Offerors in planning technical reviews, finalizing third-party vendor cost models, and executing final document production, could SCEL please provide an estimated or target date by which responses to Round 2 questions will be published?

Response: Refer to Page One of this Amendment.

2. **Question** – Please confirm that the Contractor is not required to supply, maintain, or operate physical mechanical draw boxes or ball machines for SCEL's promotional and second-chance drawings.

Response: Refer to the Response to Question 40 in Amendment 1.

3. **Question** – Please clarify whether existing player accounts migrated from the incumbent system will be transferred as pre-verified accounts, or if the awarded Contractor is required to re-run digital Know Your Customer (KYC) identity checks on all migrated accounts upon cutover or first login. As Question 91 confirms KYC vendor costs must be bundled into the Fixed Monthly Fee, knowing whether initial KYC verification applies to the full ~475,000 migrated base or strictly to new player registrations is necessary to accurately model third-party vendor costs.

Response: SCEL currently does not have KYC current Players' Club accounts. See Section 3.2.A, 3.2.B and 3.2.C for requirements.

4. **Question** – Since mobile claims/e-wallet functionality is not currently authorized by state legislation and transaction volumes cannot be estimated, please clarify whether the fixed annual price in Attachment C Table 2 is intended to cover software enablement, hosting, and platform licensing readiness, while variable third-party payment processing fees would be finalized or passed through if and when legislative authorization occurs?

Response: SCEL reserves the right to negotiate third-party payment processing fees if and when mobile claims/e-wallet functionality becomes legal.

5. **Question** – Please confirm that submitting a fully completed Attachment C workbook alongside signed Cover Pages 1 and 2 on USB 2 satisfies all mandatory Business/Price Proposal submission requirements, and that any accompanying written pricing narrative or supporting documentation is optional.

Response: Refer to “Instructions for Price Proposal” provided in Section VIII, Bidding Schedule/Price-Business Proposal.

6. **Question** – The pricing table contains an unlabeled cost column on the Options tab, alongside a column labeled 'Total', both of which sum into cell D15. To ensure Offerors populate optional pricing accurately and avoid double-counting, would SCEL please confirm the purpose of each column and whether cell D15 should sum both columns together, or if a corrected worksheet formula will be published?

Response: Refer to the corrected “Cost Summary Spreadsheet – Attachment C” provided in response to this Amendment.

7. **Question** – In pricing 'Optional Services', please confirm that an Offeror who provides the required firm fixed rate for an option may also include an alternative pricing structure or variable rate considerations within the 'Comments' cell for SCEL's consideration.

Response: SCEL confirms optional feature(s) must be explained and quoted as stated in the instructions for “Optional Services” in Attachment C - Cost Summary Spreadsheet.

8. **Question** – Can SCEL confirm that SCEL fully funds the prizes themselves from Loyalty Points (merchandise, experiences, cash prizes), with the offeror only providing fulfillment services as described in Section 3.3.B.11?

Response: SCEL will pay for all loyalty prizes directly or as a pass-through without mark-up.

9. **Question** – The response table lists total 'Requests' and 'Delivered' figures without specifying which communication channel they represent and omits SMS entirely. Please clarify which channel(s) these metrics refer to, provide monthly volume broken down by Email, Push, and In-App Messages, and provide historical or expected SMS monthly volumes.

Response: Please refer to the corrected headers in the table chart below. SCEL currently does not use SMS; and therefore, has no historical or expected SMS monthly volumes.

Date	Emails		In-App Messaging	Push Notifications
	Requests	Delivered	Number of In-App Campaigns per Month	Number of Push Campaigns per Month
1/1/2026	1,538,832	1,511,293	25	74
2/1/2026	1,616,212	1,538,878	29	50
3/1/2026	1,483,527	1,414,245	29	52
4/1/2026	1,207,378	1,149,139	25	79
5/1/2026	1,275,600	1,220,389	26	82
6/1/2026	1,575,212	1,491,952	22	89
7/1/2026	2,490,038	2,348,248	35	76

10. **Question** – Attachment D does not contain ticket scanning metrics. Please provide historical monthly volume of unique players performing ticket scans and the average total count of unique tickets scanned per month.

Response: The number of unique players is not available. Average total count of unique tickets scanned average between 8.5 and 9.2 million per month for the last six (6) months, or 284,000 per day.

11. **Question** – Attachment D does not contain monthly new registration figures or peak registration surges. Please provide historical average monthly new registrations and peak monthly registrations for the Players Club.

Response: SCEL does not have this information available.

12. **Question** – Attachment E lacks the reporting date range. Please clarify the timeframe used and provide monthly breakdowns or averages to support modeling of player support volumes.

Response: The date range for reporting in Attachment E is 2023-2026. This is a total summary of the 3-year reporting range.

13. **Question** – Question 25 (in Amendment 1) requested examples of third-party integrations for ticket checking, but none were provided. Will the contractor be responsible for providing ticket scanning services? If not, who is the current provider?

Response: SCEL will not provide examples of current third-party integration for ticket checking. Contractor will be responsible for providing ticket scanning services. See answer to question 25 in Amendment 1 for current providers.

14. **Question** – Please clarify how geolocation is triggered for targeted marketing and confirm that Offerors may model geolocation vendor costs assuming checks apply only to the opted-in player base participating in monthly push campaigns.

Response: SCEL currently sends marketing messages using zip code and scan history.

15. **Question** – For every subcontractor that is identified pursuant to the clause titled Subcontractor – Identification, Offerors must submit “A list of every business for which supplies or services substantially similar to those sought with this solicitation have been provided, at any time during the past three years.”

Will SCEL please clarify the scope of this requirement? Specifically, should Offerors list all substantially similar contracts performed by each subcontractor for any entity during the past three years, or only those contracts the subcontractor performed for the Offeror during that period?

Response: SCEL deems the existing language in the clause entitled “Qualifications – Required Information” in Part V, Qualifications is clear and unambiguous.

16. **Question** – Section IV instructs Offerors to “address all items identified in the Scope of Work; responding to each requirement in the same order that it is listed in the Scope of Work.” However, the prescribed Section 2, Technical Approach structure provides specific response locations for Scope of Work Sections 3.1 through 3.7 only, ending with Section 2.H, Acceptance Testing. It does not identify where Offerors should respond to remaining sections.

Will SCEL please clarify if and where Offerors should respond to the requirements after 3.7?

Response: Refer to the added language highlighted in Part IV, Section 2; subitems (I)(J) of this Amendment.

17. **Question** – Amendment 1 responses to Questions 103 and 104 state that “SCEL will not accept a third-party secure draw system.”

For clarity, would SCEL distinguish between (i) a third-party hosted or licensed draw system for which the Prime Contractor does not retain direct operational control, and (ii) the use of an identified, qualified subcontractor that provides specialized drawing facilities, equipment and/or operational personnel under the Prime Contractor's direct contractual responsibility, SCEL-approved procedures, security requirements and oversight? Is only the former prohibited?

Response: No. SCEL will not distinguish between (i) and (ii) above. Refer to Responses to Questions #103 and #104 provided in Amendment 1.

18. **Question** – A provider of a commercially available CRM and marketing automation platform, licensed to the Contractor, which the Contractor uses to deliver the player communication requirements in Section 3.2.D. The provider has no contract with SCEL, the Contractor remains responsible to SCEL for the platform's performance, and player data resides in the platform. Is such a provider (a) a Commercial Supplier, (b) a Subcontractor that is not a Commercial Supplier, or (c) a Subcontractor that also qualifies as a Commercial Supplier?

Response: Refer to Section 2.A and Section 5.1.h.

19. **Question** – Does SCEL require a geolocation solution that is commercially proven in online gaming, iLottery or otherwise, in order to provide expansive fraud detection such as VPN spoofing for the purposes of this RFP? If so, Bidders will need transaction types and volume estimations to price this into the five-year structure. Specifically, what actions are being geolocated (e.g., registrations, logins, ticket scans, mobile cashing, etc.) and what are the current or expected transactional volumes for each action that requires geolocation?

Response: No. Refer to Response in Question 14 above.

20. **Question** – Section 3.2.D.3–D.4 lists email, in-app messaging, and push notifications as required communication methods and requires opt-in/opt-out capability for promotional text messaging, among other channels. Can the Lottery clarify its intended use of SMS? For example, is SMS intended for transactional purposes such as two-factor authentication, deposit confirmations, or withdrawal confirmations, which would sit apart from CRM, or is the Lottery intending to use SMS for marketing purposes?

Response: SCEL intends to use SMS notifications for marketing purposes at this time.

21. **Question** – Per Section 3.2.D.3–D.4 and the Round 1 Q&A response confirming SMS as a required channel at go-live, the Offeror notes that SMS remains an uncertain channel for gambling or gambling-adjacent marketing communications, with adoption and compliance treatment varying significantly by carrier and jurisdiction. Given this uncertainty, would SCEL consider SMS being priced as an optional, offered channel within the Cost Proposal rather than included in the base pricing? The Contractor can commit to having SMS available at go-live if it proves usable, while structuring it as an optional line item would avoid embedding cost for a channel that may ultimately be unusable or restricted.

Response: SMS is required throughout the life of the contract and must be provided in the Cost Proposal.

22. **Question** – The Response provided in Amendment 1 (Question 51) confirmed that cloud hosting providers such as AWS and Azure are not considered Subcontractors for purposes of this section. Please confirm whether this same Commercial Supplier treatment extends more broadly to other categories of third-party infrastructure, data-platform, or communications-delivery tools that a Subcontractor uses to operate its proposed solution (for example, cloud data warehousing, managed database services, or SMS/message-delivery gateways), where such tools do not themselves perform or take responsibility for a discrete portion of the Offeror's proposed contractual

scope of work, even though they may process or have technical access to data as part of providing that underlying infrastructure or utility service.

Response: Refer to Response in Amendment 1 (Question 50). Offeror must identify any work performed in response to Part IV, Section 5 (h), as defined in Section II.

23. **Question** – We understand an Offer submitted pursuant to this Solicitation may be accepted by SCEL without any negotiation, but that SCEL may opt to negotiate specific provisions in its discretion.

To ensure Offerors draft requests to negotiate in compliance with this Solicitation and avoid rendering its Offer non-responsive, would SCEL please confirm the following?

Pursuant to the section Contents of Offer, to request an opportunity to negotiate a provision, Offeror must (a) identify the request to negotiate a specific provision in a separate appendix to its Offer and (b) clearly state that the item is something the Offeror would like to negotiate if it is the highest ranked Offeror, is this understanding correct?

Response: SCEL deems the language in the Contents of Offer clause in Section IIB clear and unambiguous.

- End of Amendment 2 -
